Detailed description of
professional background

Targeted roles: IT Leader – Part-time - Full-time - Contract – Fractional

I am a strategic IT leader, known for leading Technology with a cloud-forward approach to deliver the most positive and impactful results for each specific organization. I thrive in midsize companies that need IT leadership to bridge the gap between operations and IT to streamline processes, all while mentoring the team I am a collaborative, best practices, and Servant-Leader who has planned, budgeted, and managed all aspects of the technology space.

Accomplishments

- Managed Information Technology Budget
- Managed a digital-first initiative focused on implementing transformational collaboration technologies such as Microsoft O365, Teams, Teams Phone, SD-WAN, and Cyber incidents
- Formulated IT policies, guidelines, standards, and procedures to use technology and data resources efficiently
- Project-managed implementation of VMware ESXi, VCenter, and HP Nimble storage area network
- Relocated the main headquarters to 32k ~ 100k square feet of leased space office/manufacturing space domestically and internationally and eleven (11) satellite office moves, designing four (4) Data Centers
- IT Integration in Mergers, Acquisitions, and Divestitures
